

Palladium Bullion Bars

Made of 99.95% pure palladium, bullion bars come in a variety of sizes, styles and brands.

Bars range in size from 1-ounce to 100-ounces. Bars can be “cast” or “minted.” There are many different “hallmarks” (the name/brand for the refiner who produced the bar). Small bars, 1-ounce to 10-ounces, are manufactured to precise specifications and contain the corresponding amount of pure platinum. Large bars, 100-ounce, are “odd-weight” bars. “100-ounce bars” can actually weigh between 93-ounces and 107-ounces. All palladium bullion bars are bought and sold based on their gross weight. Palladium bars can be shaped differently depending on the brand.
