

Silver Bullion Rounds

Purity:	99.9% Silver
Obverse:	Coin Details
Reverse:	Various Images

FideliTrade handles rounds made by Exchange and ISO-9000 approved brands. There are many different brands/hallmarks (the name for the refiner who produced the coin). Bullion Rounds can have slightly different dimensions (thickness & circumference) based on the refiner. Bullion Rounds are acceptable in IRA's and typically have a lower premium compared to legal tender silver coins.
