

Silver Bullion Bars

Silver bullion bars come in a variety of sizes, styles and brands. The current purity standard is 99.9% fine.

The most common sizes are 1-oz to 1,000-oz. There are many different “hallmarks” (the name/brand for the refiner who produced the bar). Small bars, 1-oz to 100-oz, are manufactured to precise specifications and contain the corresponding amount of pure silver. Large bars, 1,000-oz, are referred to as “odd-weight” bars. “1,000-ounce bars” can actually weigh between 900-ounces and 1,100 ounces. All silver bullion bars are bought and sold based on their gross weight. Silver bars can be shaped differently depending on the brand.
